

Interim Management

Our focus is the management of SME's, divisions or business units in markets and industries where machine vision plays an important role, in a range of 5 to 30 Mio. EURO revenue.

Our clients are manufacturers of machine vision components, products, systems, complete turnkey solutions or automation equipment where machine vision technology is integrated.

The scope of our work ranges from change management, bridging a gap, coaching of a new management as well as the integration of a subsidiary or a company.
